Team Eco-EduTeach from Sindh made history at the Enterprise Challenge Pakistan 2025 National Final! The team from Daharki's Noor-e-Sehar Special Education School has emerged as the proud winner of this year's competition. Their innovative business idea focuses on transforming waste materials into learning resources for children with disabilities - a truly inspiring testament to the power of creativity, inclusion, and determination. A shining example of breaking barriers and redefining possibilities!

Team Eco-EduTech from Daharki' wins entrepreneur competition in British High Commission

ISLAMABAD: In the annual Inter-School Business Competition, **Team Eco-EduTech from Daharki** emerged as the winner of the eighth cycle of the **Enterprise Challenge Pakistan**, organized by the **British High Commission** in Islamabad.

The team from **Daharki, Sindh**, presented an inspiring business idea focused on repurposing waste materials to create educational tools for children with disabilities. [Farewell Call by Ambassador Donald Blome on Finance Minister Aurangzeb](#)

The event, held in Islamabad, was hosted by the **British High Commissioner Jane Marriott CMB OBE**, in collaboration with **King's Trust International** and **SEED Ventures**. Their innovative concept showcased the potential of inclusion and creativity in solving real-world problems.

Enterprise Challenge Pakistan is the country's largest national entrepreneurship competition for students under 18. This year's finals, held on **January 18**, featured groundbreaking startup ideas from five teams representing various regions of Pakistan.

Some of the standout ideas included:

- **Peshawar: Green Sprout Farm** – An innovative solution aimed at maximizing agricultural yields while minimizing water usage and space.
 - **Multan: Paws on Wheels** – A business concept providing professional pet healthcare services delivered directly to customers' doorsteps.
 - **Quetta: Nutribites** – Nutrient-rich gummies offering a convenient and healthier alternative to traditional pills and tablets.
-

-
- **Islamabad: Aqua Wave** – A portable water purification bottle designed to provide instant access to clean drinking water anytime, anywhere.

Prizes were awarded to teams based on their creativity, environmental sustainability, financial feasibility, and social impact.

The **King's Trust Global Young Achiever Award Asia 2024** was awarded to **Mahnoor** for her innovative idea of utilizing fly larvae and food waste to produce sustainable products like organic chicken feed and powdered chitosan.

While addressing the competition, **British High Commissioner Jane Marriott** expressed her admiration for the extraordinary young finalists. She remarked, *"Meeting these remarkable students and learning about their innovative business ideas, as well as how they are contributing to their communities, has left me energized and hopeful as we step into 2025."*

Team Eco-EduTech from Daharki Wins Entrepreneur Competition at British High Commission

Team Eco-EduTech from Daharki, Sindh, secured victory in the eighth cycle of the Enterprise Challenge Pakistan, an inter-school business competition organized by the British High Commission in collaboration with The King's Trust International and SEED Ventures.

The team presented an innovative business idea focusing on utilizing waste materials to develop learning tools for children with disabilities. Their concept demonstrated creativity, sustainability, and social responsibility, earning them the top position in the competition.

The final round of the competition was held in Islamabad on January 18 and featured five teams from different regions of Pakistan, each showcasing unique startup ideas aimed at solving real-world challenges.

1. Green Sprout Farm (Peshawar) – A project designed to enhance agricultural yields while conserving water and space.
2. Paws on Wheels (Multan)– A mobile pet healthcare service providing veterinary care at residents' doorsteps.
3. Nutribites (Quetta)– A product offering nutrient-rich gummies as a convenient alternative to conventional tablets and pills.
4. Aqua Wave (Islamabad)– A portable water purifying bottle ensuring access to clean drinking water anywhere, anytime.

Mahnoor received the King's Trust Global Young Achiever Award Asia 2024 for her innovative approach to using fly larvae and food waste to produce organic chicken feed and powdered chitosan.

British High Commissioner Jane Marriott CMB OBE hosted the event and praised the young entrepreneurs for their vision and impact. She emphasized the importance of fostering creativity and entrepreneurship among Pakistani youth and commended the participants for their contributions to their communities.

The Enterprise Challenge Pakistan has engaged over 8,000 students since its inception, with 1,700 students participating this year. The program collaborates with the Federal Ministry of Education and Professional Training, ensuring the involvement of public schools, which accounted for 31% of the total competing institutions.

The King's Trust International operates in 20 countries, providing young people with skills and opportunities to develop their entrepreneurial potential. SEED Ventures continues to support social enterprises and innovative business solutions to drive positive change.

The event concluded with a reaffirmation of the commitment to encouraging young entrepreneurs in Pakistan and strengthening future collaborations in business and social impact.

During the national finals of the eighth cycle of Enterprise Challenge Pakistan, the largest entrepreneurship competition for students under 18, British High Commissioner Jane Marriott CMG OBE praised the creativity and determination of young Pakistani entrepreneurs. The event, hosted in Islamabad in partnership with King's Trust International and SEED Ventures, showcased inspiring business ideas. Team Eco-EduTech from Daharki, Sindh, won the top spot with an innovative concept using waste materials to create learning tools for children with disabilities.

Other finalists included Peshawar's Green Sprout Farm, Multan's Paws on Wheels, Quetta's Nutribites, and Islamabad's Aqua Wave. Mahnoor received the King's Trust Global Young Achiever Award Asia 2024 for her sustainable business idea using fly larvae and food waste. Marriott expressed optimism about the future, stating these young entrepreneurs are a true credit to Pakistan and are set to make bigger innovations.
